

Pipe & Mufflers 2003

ALU - TUNED MUFFLER

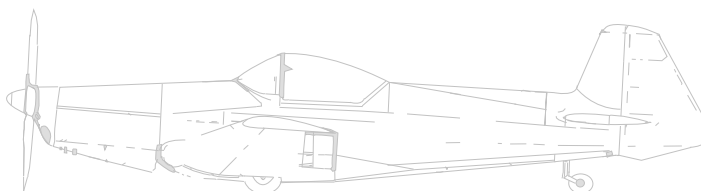

HIGHT EFFECTIVE- ALU - SILENCER

ADDITIONAL SILENCER & ACCESSORIES

ModellStudio CZ produce also

- "silver- solder" stainless steel fuselages for Heli, planes and others construction.
- special pipes and mufflers and complete sortiment of accessories.

MODELLSTUDIO CZ

Tuned Mufflers

Silencer s specification:

After more than 8 years experience in research and development in this category, Modell Studio can offer large range of exhaust systems for model engines today.

The design's moderate acoustic pulse achieves the best balance of attributes between power increases and sound reductions, combined all in one unit.

The silencers are suitable for two stroke engine.

Many costumers used there and test it in planes and heli too.

Silencer had compact body. The counter are stamped or welded.

Silencers had more levell. (for instance 0242100 three levell, inside of part you can see in 0242160)

Input and Output Diameter may be shipped in other size according an order

Description:

Alu Tuned Muffler 3,5 - 6,3 c.c.

Length: 313 mm

Input diameter: 20 mm

Output diameter: 12 mm

Max diameter : 36 mm

Weight:c 120 gr.

Material and machined: Aluminium, All welded structure

Order Nr. 0242203

Description:

Alu Tuned Muffler 6,5 - 15 c.c.

Length: 435 mm

Input diameter: 20 mm

Output diameter: 12 mm

Max diameter : 36 mm

Weight:c 150 gr.

Material and machined: Aluminium, All welded structure

Order Nr. 0242206

Description:

Alu Tuned Muffler 15 - 30 c.c.

Length: 457 mm

Input diameter: 20 mm

Output diameter: 12 mm

Max diameter : 40 mm

Weight:c 180 gr.

Material and machined: Aluminium, All welded structure

Order Nr.0242215

Silencer

**Description:**

Hight effective sillencer extra suitable for free style fly.
Designed for engine c. 40 cc

Length: 330 mm

Input diameter: 25 mm

Output diameter: 18 mm

Max diameter : 63 mm

Weight:c 330 gr.

Material and machined: Aluminium, All welded structure

Order Nr. 0242240

Description : hight effective sillencer extra suitable for free style fly.
For engine 60 cc.

Length: 350 mm

Input diameter: 25 or 28 mm

Output diameter: 18 mm

Max diameter : 63 mm

Weight:c 340 gr.

Material and machined: Aluminium, All welded structure

Order Nr.0242260

**Description :**

Hight effective sillencer extra suitable for free style fly.
Designed for engine c. 80 cc.

Length: 380 mm

Input diameter: 28 mm

Output diameter: 18 mm

Max diameter : 63 mm

Weight:c 370 gr.

Material and machined: Aluminium, All welded structure

Order Nr. 0242280

Description

additional silencer

Length:260 mm

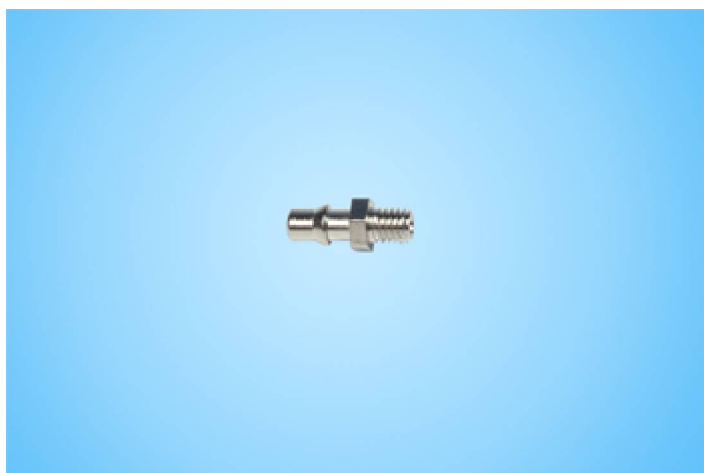

Input diameter: 16 mm

Output diameter: 16 mm

Max diameter : 40 mm

Weight : 95 gr.

Order Nr. 0242100

Description:

Pressure fitting M4

Order Nr.:0200000
